

SkillBridge Internship Program

Project Development Assignment

Submission Deadline: 31 July 2026

Welcome to the SkillBridge Internship Program.

As part of your internship journey, you are required to successfully complete and submit an industry-oriented software project. This project has been designed to help you gain practical development experience, strengthen your portfolio, improve your GitHub profile, and showcase your technical abilities to recruiters and hiring managers.

Project Title

Internship Management Portal

Project Overview

Design and develop a full-stack web application that enables organizations to manage internship programs efficiently.

The system should provide separate dashboards for Students, Mentors, and Administrators while allowing project assignments, submissions, progress tracking, and certificate management.

Your solution should focus on:

- Clean User Interface
- Functional Backend
- Database Design
- Authentication
- Real-World Workflow Management
- Deployment Readiness

Core Modules

1. Authentication System

- User Registration
- Login System

- Secure Authentication
- Role-Based Access Control

2. Student Dashboard

- Profile Management
- View Assigned Project
- Project Progress Tracking
- Submit GitHub Repository
- Submit Deployment Link
- View Feedback

3. Mentor Dashboard

- View Assigned Students
- Review Submissions
- Approve / Reject Projects
- Provide Feedback

4. Admin Dashboard

- Manage Students
- Manage Projects
- Track Progress
- Review Analytics
- Generate Certificates

5. Analytics Module

Include metrics such as:

- Total Students
- Active Students
- Completed Projects
- Pending Reviews
- Completion Percentage

6. Certificate Generation

- Certificate ID
- Downloadable Certificate
- Completion Status Verification

Recommended Tech Stack

- Next.js
- React
- TypeScript
- Tailwind CSS
- Prisma ORM
- PostgreSQL
- Vercel Deployment

Expected Deliverables

Every intern must submit:

1. Public GitHub Repository
2. Live Deployment URL
3. Complete README File
4. Project Documentation
5. Screenshots of Major Features

GitHub Repository Requirements

Your GitHub repository must be **public**.

The repository should include:

- Professional README.md
- Project Description
- Features List
- Installation Guide
- Technology Stack
- Screenshots
- Deployment Link
- Folder Structure Explanation

Repositories without proper documentation may receive reduced evaluation scores.

Evaluation Criteria

Category	Marks
Functionality	30
UI / UX Design	20
Backend Development	15
Database Design	10
Code Quality	10
GitHub Practices	10
Documentation	5
Total	100

Important Instructions

- Deadline for submission is **31 July 2026**.
- Late submissions may not be considered for evaluation.
- All work must be original.
- AI tools may be used as development assistants but the final implementation must be understood by the intern.
- Maintain proper commit history throughout development.
- Avoid uploading unnecessary files and dependencies.

Project Submission Process

The official project submission form will be circulated through email before the deadline. Do not send project repositories directly through email unless specifically instructed. Submit your project only through the official submission form when it is released.

Workspace Access

You will soon receive your SkillBridge Workspace access through email.

The workspace will be used for:

- Project Tracking
- Attendance Monitoring
- Progress Updates
- Announcements
- Submission Records
- Internship Activities

Please ensure that you regularly check your registered email address.

Need Help?

For any project-related questions, technical issues, submission concerns, or internship support, contact:

`cohort.skillbridge@skillbridge.co.in`

Our team will assist you as soon as possible.

Final Note

This project is more than an internship assignment.

Treat it as an opportunity to build a strong portfolio project that demonstrates your skills to future employers.

Focus on writing clean code, creating a great user experience, documenting your work professionally, and building something you are proud to showcase.

Build. Learn. Grow.

Team SkillBridge
